Electrical Controls and Troubleshooting

Cost: \$2895 per person

Location: GCTI and other potential locations

Meals provided: breakfast & lunch

Description:

The Electrical Controls and Troubleshooting course will cover safety first, then OSHA Requirements regarding troubleshooting and qualified persons. Then, the following topics are addressed: Start/Stop Circuits, HOA (Hand Off Automatic) Wiring, Permissive and Interlock Circuits, Relay Logic vs PLC Logic, Transformer Wiring, and Wiring Schematics. The course will then describe using electrical drawings for troubleshooting and using electrical meters to perform circuit measurements. Finally, the course will cover how to develop a logical, systematic approach to troubleshooting.

Length: 4 day course

8 day course available. Contact GCTI for details.

Time: 9:00 AM - 4:30 PM
